OUR TOWN

St. Paul, MN

St. Paul, MN, which boasts the motto, "The most livable city in America," is known for its beautiful skyline, culture and music festivals and businesses, including these three reputable hair salons. —Nicole Palmieri

Phresh Spa Salon

Located in a charming Victorian house on historic Grand Avenue, the family-owned and operated Phresh Spa Salon is known for offering guests an experience that is "all about them, from the moment they book their appointments to the time they leave," says Christine Fiebiger, general manager and daughter of Phresh's owners, Tracy and Rick Fiebiger. The full-service spa and salon features a decor that is a blend of Victorian charm and chic accents. The salon's loyal clientele visits Phresh for services ranging from hairstyling to spa treatments, and also to attend events. Girl's Day Out and bridal gatherings are popular, as well as an annual fashion show featuring trendy hairstyles and makeup paired with fashions from local boutiques. It's the fresh ideas, styles and techniques that define the salon. "The 'ph' offers both a clinical connotation, as in pH balance, as well as great recall," Fiebiger says. "No one forgets Phresh once they see it!"

IN STOCK: Jane Iredale, Oribe, SkinCeuticals

Root

Education is the key to Root's success residents since the salon opened its doors to owner Jim Koktavy. "We extensively says. The 3,800-square-foot salon offer on vanity," Koktavy says. "We left the the spas. If it makes you look better, w in a brownstone building in a historic a salon features an organic-chic interior and limestone walls, local artwork, pla while Koktavy feels the term "loftlike" says that it truly applies to Root. "The our esthetic," he says. "We actually ha above our front desk." Root, a clever n
